

Keep in mind

The series Working Papers on Economics is published by the Office for Economic Studies at the *Banco de la República* (Central Bank of *Colombia*). The works published are provisional, and their authors are fully responsible for the opinions expressed in them, as well as for possible mistakes. The opinions expressed herein are those of the authors and do not necessarily reflect the views of Banco de la República or its Board of Directors.

#### AUTHOR OR EDITOR

Carlos León

American, unlike the Gini method for estimating the power law exponent, verifies that the positive and negative markets are equally important, suggesting that the market is more organized than the Gini method suggests. The results suggest that local financial markets are semi-organized systems, a gradually increasing Levy distribution.

The views expressed in the paper are those of the authors and do not represent those of the Banco de la República or its Board of Directors.
